

FLEURIEU CONNECTIONS ALLIANCE

March 2023

Overtaking Lanes between Myponga and Cape Jervis

HAVE YOUR SAY

Project Overview

As part of the South Australian Government's election commitment, the Department for Infrastructure and Transport (the Department) is conducting a planning study to investigate potential options for the construction of three overtaking lanes between Myponga and Cape Jervis.

The Australian and South Australian Government have jointly committed funding for this initiative.

Planning Study

Stakeholder and community engagement forms an important part of this Planning Study.

We are now seeking local insights from the community to help us better understand:

- potential locations for the three new overtaking lanes; and
- how people use and access Main South Road now and how this might change in the future.

HAVE YOUR SAY

Your feedback will be used to help determine the locations and design of the overtaking lanes along this section of Main South Road.

Please continue to read over the page to find out how you can provide your feedback.

Feedback can be provided until 5pm Sunday 30 April 2023.

To have your say we invite you to:

- scan the QR code to complete a short survey online; or
- visit the FCA website to find out where you can meet the Project team face-to-face to share your insights.

Overtaking Lane Planning Study - Myponga to Cape Jervis

What's next

We will continue to engage with key stakeholders, local council and the community as the project progresses towards construction, which is expected to commence in 2024.

Register to stay in touch

If you would like to receive regular updates about the planning work, you can register by:

- calling 1300 896 826
- emailing: info@fcalliance.com.au

This work is being delivered by the Fleurieu Connections Alliance (FCA), a consortium comprising CPB Contractors, Aurecon and GHD, with Sub-Alliance partners McMahon Services Australia and Tonkin, in association with the Department.
